Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories? How much money is now allocated in the program subject area?

The library holds substantial amounts of material to support clinical nursing. The allocation for 2018-19 for monographic materials for Nursing is approximately \$9,000.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The Faculty Questionnaire lists PubMed as a required resource. URI has a subscription to PubMed as well as many other medical and nursing journals.

3. What new resources are required to support the program (including media, electronic, or other non-print materials)?

No new library resources are required for the support of this program.

4. What information mastery sessions will be required for the students?

As this is a practicum course, no information mastery sessions will be required in the library.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this program.
