LIBRARY IMPACT STATEMENT (New Program Proposal)
LIBRARIAN'S ASSESSMENT

The Collection Management Officer will complete this form as requested, assessing library materials and collections as detailed below, returning. Subject selectors who receive requests for Library Impact Statements for new programs should forward those requests to the CMO.

Program: Doctor of Business Administration_____

Department, College: Business_____

Faculty Member: Judy K. Beckman_____

Date returned to Faculty: _9/10/18_____

Librarian Completing Assessment: _Joanna M. Burkhardt_____

Collection Management Officer: Joanna M. Burkhardt_____

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories? How much money is now allocated in the program subject area?

The URI Libraries have substantial holdings in relevant subject categories. In recent years many of those holdings have been purchased in a digital format so that they can be available online. The allocation for the purchase of monographs for Business for 2018-19 is approximately \$12,000. The allocation for journals is not broken out by department. We subscribe to most of our journals online and already support the Business programs with our subscription packages.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

URI subscribed to the essential journals noted in the Faculty Questionnaire.

3. What new resources are required to support the program (including media, electronic, or other non-print materials)?

No new library resources are required to support this program.

4. What information mastery sessions will be required for the students?

No information mastery sessions are required for students. I highly recommend that students be directed to the library instruction department if they need assistance in the use of databases and/or the selection of research material.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
