The Library Impact Statement for BUS 140 (G) *Introduction to Business* states that students will be conducting library research in the course to create a business plan outline.

In response to the question about what critical journals, monographs, and electronic resources the University Libraries *must* have to support the course, the response is, "Existing online journals in each discipline in business will be accessed."

Based on my review of the Library Impact Statement and the sample syllabus for BUS 140 (G), I conclude that the University Libraries can meet the needs of this introductory course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.
