Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library has extensive holdings in both monographs and serials to support the Pharmacy Program. The allocation for monographs for Pharmacy for 2017-18 is approximately \$18,000. The cost of journals and databases is not broken out by department. We do subscribe to large databases of journals relevant to medicine and pharmacy.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

URI subscribes to the databases noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required to support this course.

4. What information mastery sessions will be required for the students?

Information mastery sessions are not required for students in this course. Should individual instructors want instruction for their classes, they may contact the Public Services Department at the Library to make an appointment.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
