**LIBRARY IMPACT STATEMENT (New Course Proposal)**  
**LIBRARIAN'S ASSESSMENT**

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: AFS 404

Department, College: Fisheries, Animal and Veterinary Sciences. CELS

Faculty Members: Professor Katherine Petersson

Date returned to Faculty: February 2, 2018

Librarian Completing Assessment: Michael Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

---

This 3 credit course is titled "Food Systems, Sustainability and Health." The course will be cross-listed with NFS and SAF. The students will be conducting some research including a science presentation and final paper.

We are able to add whatever appropriate monographic needs may arise for the instructors. Our monographic holdings in the health and nutrition, ecology, and natural resource sciences are good and any additional materials can be ordered through the Library or garnered using Inter-Library Loan (ILL).

Access to journals and government documents in this field meets the needs of the course. Our online indexes and abstracts in nutrition and food sciences specifically and the sciences generally should more than meet the demands of this course. In particular, access to PubMed and reference databases such as Science Direct, Web of Science, Biology Abstracts (BIOSIS), Environment Abstracts and the more general Academic Search Complete are available. There are many online journals such as Clinical Nutrition, Ecology, Nature, and Science which are also available online through the Library. We are unable to add any new journal titles at this time. However, our current holdings in this field seem sufficient.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael Cerbo II,  
Fisheries, Animal and Veterinary Sciences Bibliographer
