**LIBRARY IMPACT STATEMENT (New Course Proposal)**  
**LIBRARIAN'S ASSESSMENT**

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: AVS 326/326X

Department, College: Fisheries, Animal & Veterinary Science. CELS

Faculty Member: Professor Katherine Petersson

Date returned to Faculty: November 17, 2017

Librarian Completing Assessment: Michael A. Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

---

This new course is titled "Equine Management" and the Professor expects the students to do little research in the course. This course is devoted to the "Principles of selection, breeding, feeding, management, behavior, health and welfare of horses."

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in the animal and veterinary sciences are good and any additional materials can be garnered through our Interlibrary Loan office.

Access to journals in this field meets the needs of the course. Our online indexes and abstracts in animal and veterinary sciences specifically and the sciences generally should more than meet the demands of this course. In particular, access to reference databases such as Academic Search Complete and others are available. There are many online journals, such as Applied Animal Behavior Science and Animal Behaviour, in the field that are also available online through the Library. We are unable to add any new journal titles except through a drop/add policy that requires the department to identify a journal title (of equal value) it would like to drop from its serials list to permit the addition of another. However, our current holdings in this field seem sufficient.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.
