LIBRARY IMPACT STATEMENT (New Program Proposal)
LIBRARIAN'S ASSESSMENT

The Collection Management Officer will complete this form as requested, assessing library materials and collections as detailed below, returning. Subject selectors who receive requests for Library Impact Statements for new programs should forward those requests to the CMO.

Program: Concentration in Naval Sciences and Technology_____

Department, College: Engineering/Engineering_____

Faculty Member: _David Taggart_____

Date returned to Faculty: _10/30/17_____

Librarian Completing Assessment: Joanna M. Burkhardt_____

Collection Management Officer: Joanna M. Burkhardt_____

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories? How much money is now allocated in the program subject area?

The URI Libraries have extensive holdings in relevant subject categories, both journals and monographs. The allocation for the purchase of monographs for Engineering for 2017-18 is approximately \$25,000. Any monographs necessary to update the collection in relevant areas can easily be funded with this allocation.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The Faculty Questionnaire indicates that the existing journals and databases are sufficient to support this program.

3. What new resources are required to support the program (including media, electronic, or other non-print materials)?

No new resources are required to support this program.

4. What information mastery sessions will be required for the students?

Information mastery sessions are available to students as needed. Professors may contact the Public Services Department in the Library and or subject liaison Peter Larson for further information.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs for library materials to support this program.
