International Ball to Highlight Weekend; ‘Evening In The Far East’ Set As Theme

An Evening in the Far East’ is to be the theme of the third annual Intenational Ball to be held Saturday night from 8:30 to midnight at Legacy Gym. The dance will be sponsored by the All Nations Club and will be open to all students and fac-
tory students and staff members.

Music will be provided by Tony Abate and his orchestra. Attire is informal and those attending the dance are expected to wear any style clothing they desire.

The festivities at the dance will include a composite view of the Universities of Central China, Japan, Korea, Pakistan, the Philippines and Vietnam. The gym will be decorated with paintings, posters and flags from the different countries.

Highlighting the dance will be the crowning of the queen of the ball. Anyone who attends the dance will be a candidate for the queen, who will be chosen from representatives of 15 URI women’s housing units.

Various oriental ceremonies will be performed in the coronaion of the queen. The queen and her court will be escorted by women students and will be held under a canopy.

The dance will feature a Chinese pavilion and will be open to all students.

Everyone who attends the dance to the queen according to the written descriptions of the dance will be able to attend.

Spanish Philosopher to Speak To R

Dr. Juan Lopez-Morillas, chair-

man of the department of Spanish and Italian at Brown University, will be tonight’s Visiting Scholar at 8 p.m. in the Union Lounge.

He will discuss anti-semitism and its implications in the United States.

Dr. Lopez-Morillas will speak on “Ortega y Gasset. A Portrait of the Philosopher as a Spectator of Life.”

A native of Zaragoza, Spain, Dr. Lo-

pez-Morillas attended the University of Madrid and the University of Iowa. He taught at Harvard, Duke and the University of Southern California before joining the Brown faculty 18 years ago.

He is the author of several articles and books on contemporary Spanish literature and Spanish cultural history. Some of his textbooks have been used at URI.

He was awarded two Guggenheim fellowships for preparing a three-volume study of Miguel de Cervantes, the great Spanish writer.

Dr. Lopez-Morillas’ lecture was an in-

fluential event. The author of “Revolutions in the Idea,” “Toward a Philosophy of History” and “The Dehumanization of Art.”

Trustees Consider Voluntary ROTC

A committee meeting for a voluntary ROTC program at URI, which was passed by the Faculty Senate Jan. 18, will be submitted today to the Board of Trustees of URI Senate To Support Fund Drive

The URI Student Senate last Mon-

day night voted to establish a fund, drive committee to initiate a pro-

gram to raise money to support the Student Nonviolent Coordinating Committee (SNCC). Albert Segal-

ski was named chairman.

The purpose of the URI com-

mittee is to make the necessary ar-

rangements for raising money to help meet the financial needs of the SNCC. The money will be used for help pay fines, secure legal assis-
tance, publicize events in the South and throughout the nation, and purchase monograph machines, textbooks and other ma-

terial needed in their voter registra-
tion campaign.

SNCC was formed shortly after the first sit-ins in Greensboro, North Carolina in February, 1960. It is an almost exclusively Southern student group composed primarily of Negroes.

The group has begun a long-range program in voter registration and non-violence in Mississippi. With the help of high school students, the classes in which local Negroes were prepared to take the iniquitous literacy test—inter-

esting and interestingly a section of the Mississippi constitution—were organized.

According to figures released by the organization, 13 counties in Mississippi have no registered Ne-

groes. The county in which 44 percent Negro, only six percent are eligible voters.

SNCC has been strongly backed

Coffee Hour Today On Anti-Semitism

Sydney Ahlbovitz, Prov-

idence director of the Anti-

Defamation League of Bna-

Brith, will speak on “Anti-

Semitism Today” at today’s coffee hour sponsored by the URI in the Union Lounge at 4 p.m.

He will discuss anti-semitism and its implications in the United States.

State Colleges by Dr. Harold W. Brown, acting URI president.

The program was passed by the board without any vote at the matter of today’s meeting but will probably be held for considerations.

The report, called the “minority report of the special faculty com-

mittee on the ROTC program,” was passed by the Faculty Senate by a voice vote after the senate rejected a majority report calling for compul-

sory ROTC by a vote of 18 to 16. Both reports were written by a committee of five, two of whom sup-

ported the voluntary ROTC pro-

gram.

Members of the committee were

Dr. George A. Balasimn, Prof. Ken-

neth Doolittle and Dr. William D.

Pope. The URI ROTC. Dr. Ralph W. England and Dr. Harrison L. Finl supported the voluntary program.

The committee was appointed last spring by Dr. Brown, chairman of the Faculty Senate.

“I tried to set up a balanced com-

mittee,” Dr. Salomon said yester-

day. “And the fact that they put a split on the ROTC question shows that they are about even.”

“I thought the students should be given a chance to prove them-

selves. They have the chance. Now it’s up to them.”

The vote came after two years of discussion on the ROTC matter by the Faculty Senate, the Student Senate and the American Association of University Pro-

fessors.

The extensive Student Senate re-

port called for a voluntary program owing to the fact that there was no similar system last year.

At last year’s Faculty Senate ap-

proval debate on the matter the faculty rejected the report, which proposed that the ROTC and the men’s phys-

(Continued on Page 2)
Voluntary ROTC. But...

The question of a compulsory ROTC program on campus has again come to the fore. The Faculty Senate is on record as favoring its elimination. The Board of Trustees is considering it today.

The arguments against the compulsory program have been noteworthy:

1. Out of all the students who elect the advanced program, only a limited number accept military training. Therefore, any attempt to force all students to go through a military training course has been considered oversimplified and often times boring to the disinterested students. This attitude, instruction has been hampered and spirit of corps has been low.

2. Under the present ROTC program, there is no advantage to participating in a compulsory program if the student does not go advanced. When the student enters the Regular Army after graduation, no consideration is given to the fact that he has had prior military instruction. Like any other estimate, he must go through the same basic training.

In consideration of all these underlying factors, it is our opinion that a voluntary ROTC program with a compulsory first semester of orientation in the freshman year would benefit both the university and the nation.

Under this compulsory orientation program, the student would receive an arbitrary number of credits and be required to attend classes in which he would receive a clear and comprehensive picture of the military.

The morale and caliber of the participating cadets will be greatly improved. Also, the students would receive a clear and comprehensive picture of the military.

The security of America must be maintained, so must the independence of the scholar. America needs competent officers but it also needs qualified lawyers, scientists and educators who are not necessarily interested in directly incorporating the military in their studies. Let the students do well in that for which they are suited.

Campus Mud Flats

One of the essential attributes of a university should be the orderly maintenance of the campus property. Does URI have the proper tools needed to maintain a neat and orderly campus? Does URI have the proper tools to maintain a neat and orderly campus?

The College has always been interested in keeping the campus as clean as possible, but it has always been difficult to maintain the property. Does URI have the proper tools needed to maintain a neat and orderly campus?

While the property has been kept clean in the past, the Maintenance Department has been able to keep up with the demands of a large student body. However, in recent years, the demands of the student body have increased, and the Maintenance Department has been unable to keep up with the demands.

In conclusion, it is recommended that URI purchase the proper tools needed to maintain a neat and orderly campus. This will not only improve the appearance of the campus, but it will also improve the morale of the students.

Voluntary ROTC Supported

Two years ago I voted for the continuation of required ROTC but I have always been lukewarm about it. Last Senate meeting on Jan. 11, I supported the program because it is a matter of national and international importance.

Fundamentally, our military training at institutions of higher education has not changed in 250 years. I believe it contributes to the national security of the United States. I support the program because at URI it is a part of our national defense and our international security.

It appears clear that the program meets a need and is an important function of this university. Where else does our society receive an education of such quality, especially with that of URI.
Spring Musical Announced recently by the University of Illinois, University Productions, Inc. will present a wide variety of selected men's voices forming the core of the spring musical College Glee Club, will perform in the Memorial Union on Sunday, April 12, of $30 million every year for research alone. Much diversified activity opens up many interesting jobs. Then, too, Du Pont is active in almost $90 million for research alone. for chemists and physicists, sales and marketing men. For information about opportunities here, clip and mail the coupon.

WHAT ARE THE ADVANCEMENT OPPORTUNITIES AT DU PONT?

As a matter of fact, career opportunities at Du Pont are excellent. One reason is the fact that the company is growing constantly—and growth creates new opportunities.

Consider, for example, that Du Pont allocates more than 15% of its total sales to research and development. In fact, Du Pont spends more on research and development than any other company in the world. This funding enables Du Pont to maintain a competitive edge in the marketplace, allowing the company to stay ahead of the curve in terms of innovation and technological advancement.

Du Pont is committed to hiring the best and brightest engineers and scientists from top universities and research institutions. The company offers a wide range of opportunities in areas such as chemical engineering, mechanical engineering, electrical engineering, and more. Du Pont provides its employees with access to state-of-the-art facilities, equipment, and software, as well as opportunities for professional development and advancement.

In addition to the technical and scientific opportunities at Du Pont, the company also offers a dynamic and collaborative work environment. Du Pont fosters a culture of innovation and creativity, and encourages its employees to think outside the box and take calculated risks. Du Pont also values diversity and inclusion, and strives to create a workplace that is welcoming and supportive of all employees.

If you are interested in exploring career opportunities at Du Pont, you can visit the company's website to learn more about the specific opportunities available and to apply online. Du Pont is always on the lookout for talented and motivated individuals to join its team and contribute to the company's ongoing success.

BETTER THINGS FOR BETTER LIVING...THROUGH CHEMISTRY
An equal opportunity employer
Male URI freshmen interested in campus fraternities attended a smoker held by the International Fraternity Council last Sunday at Edwards Hall.

The freshmen will meet at a convention in Edwards Hall at 1 p.m. Saturday, March 3, to receive their bids. Each freshman will receive a sealed envelope containing his bid. He must choose his fraternity within a half hour during which no communication is allowed.

Following the smoker last Sunday, interested freshmen were invited to visit each fraternity represented on campus where they were introduced to house members and became acquainted with the fraternity and its rules.

The freshmen were told that through the smoker and the following mixer, the freshmen were given the opportunity to become familiar with fraternity life at URI and to make themselves known to housemates they are interested in joining.

New Clinic Hours

New hours have been set in the Dental Hygiene Clinic in Washburn Hall.

Beginning this week, appointments at the clinic may be made for each Tuesday, Wednesday and Friday at 1 p.m. and 3 p.m. by calling extension 650 or at the dental hygiene clinic.

The fee for a teeth cleaning is $1. Fullmouth X-rays which can be taken both services.

Diets of a resident inspector and duties of a resident inspector and preparation and qualifications for a regional office, will serve Union Board meetings.

There will be a coffee hour preceding Center. Popularity. WAKEFIELD, R.I.

The Interfraternity Council at URI Feb. 23-24 pointed a representative to observe at the Interfraternity Council last Monday night voted to appoint a committee to study discrimination clauses in the constitutions of fraternal organizations.

The committee will submit its report at the association's meeting next month.

The vote was made after Fred Stein, a URI graduate student, read a report suggesting the association support the efforts of campus groups to improve housing for foreign and Negro students both on and off campus.

Mr. Stein said current off-campus housing lists are often discriminatory to Negro and foreign students in that the housing office now accepts listings which have restrictive housing clauses.

Mr. Stein believes the housing office will soon reverse its policy and accept only listings with "open vacancy clauses."

In other actions of the association, heard a report from the constitutional committee reviewing a report that would like to join both sexes.

Each patient is asked to bring his toothbrush and gum to the screening.

Miss Reba Meyers, associate professor of dental hygiene, said the clinic is in need of adult patients. Services are available to all members of the faculty, staff and student body.

Rodman Report

Co-Rec Volleyball came to an exciting finish at the end of last season with undefeated Sigma Delta Tau and Alpha Epilson-Pi capturing the championship over Delta Zeta and Phi Sigma Society. The ladies will meet Sunday, March 3, at 4:30 p.m. on the tennis court of a regional office. Following the smoker and the following mixer, the freshmen were given the opportunity to become familiar with fraternity life at URI and to make themselves known to housemates they are interested in joining.

Race Clauses to be Topic of Study

The URI Graduate Student Association last Monday night voted to appoint a committee to study discrimination clauses in the constitutions of fraternal organizations.

The committee will submit its report at the association's meeting next month.

The vote was made after Fred Stein, a URI graduate student, read a report suggesting the association support the efforts of campus groups to improve housing for foreign and Negro students both on and off campus.

Mr. Stein said current off-campus housing lists are often discriminatory to Negro and foreign students in that the housing office now accepts listings which have restrictive housing clauses.

Mr. Stein believes the housing office will soon reverse its policy and accept only listings with "open vacancy clauses."

In other actions of the association, heard a report from the constitutional committee reviewing a report that would like to join both sexes.

Each patient is asked to bring his toothbrush and gum to the screening.

Miss Reba Meyers, associate professor of dental hygiene, said the clinic is in need of adult patients. Services are available to all members of the faculty, staff and student body.

Resident Inspector

Of FDA to Speak to Phi Sigma Society

Richard D. Turner, resident inspector in Providence from the Food and Drug Administration, will speak at an open meeting of the Phi Sigma Society, Tuesday in Ranger Hall at 4:30 p.m.

Mr. Turner will give a report on the nature of work in a regional office, showing a resident inspector and qualifications for careers with the Food and Drug Administration.
Deadline Set
For Beacon
Applications

The Beacon Board has announced that all applications for executive positions on The Beacon for the college year 1962-63 must be submitted to editor-in-chief Marionne M. Linke in the Beacon office by 10 a.m. on Friday, March 1.

Positions to be filled are editor-in-chief, managing editor, news editor, business manager, advertising manager, sports editor and circulation manager. Application may be made for more than one position. Each applicant is asked to state his order of preference for positions when he submits his application form.

Eligibility Requirements for Executive Officers:
Each applicant must be in good standing with the university and must have at least achieved the required university average in the semester prior to the period of application. The editor-in-chief shall have completed at least five semesters by the time of his appointment. No executive officer may succeed himself in any office. The Beacon Board may void any application which contains, in whole or in part, material, a misrepresentation.

Procedure for Selection of Executive Officers:
All applications must be submitted in their entirety by March 2. Each applicant may submit any material which he feels will help to sustain and supplement his qualifications. Few applications must be accompanied by written recommendations from three faculty members. Each applicant will be interviewed by the Beacon Board at the time he submits his written application and the accompanying material. The Board shall take into consideration each applicant's other extracurricular activities as a factor in considering his acceptability as an executive officer.

All interviews shall be completed by the third Friday of March. The new executive officers will be announced prior to the publication of the first Beacon in April. The new executive officers will begin their duties with the production of the third issue in April. Retiring executive officers will serve in advisory positions for the remainder of the college year. Appointments to an executive position will require a majority vote of The Beacon Board. The Beacon Board consists of the editor-in-chief, managing editor and business manager of The Beacon, the faculty advisor to The Beacon, a faculty member appointed by the president of the Associated Undergraduate Students and the president of the Student Senate.

With your application, include recommendations from any URI faculty members; include also clippings and any other material which you believe will assist in a proper appraisal of your application.

If further space is needed, attach an 8½ x 11 sheet to the application form.

At WEST PENN POWER
YOU CAN SURGE AHEAD

Find out on February 13

Mark the date on your calendar pad right now—if you're looking for a career in engineering and not just another job! That's the day a West Penn Power representative will be on campus to fill you in on the details—so you can learn how an engineer can and does surge ahead in this company.

Sign up for an interview—and see for yourself that West Penn Power is an engineering-minded company that knows and talks your language.

At West Penn an engineer is more than just a slide rule jockey. He is given a chance to advance when positions open up. That's why engineers fill many executive-type positions at West Penn.

You owe it to yourself to look into this challenging opportunity with a company in a challenging industry.

If you're looking for a career and not just another job—you'll sign up with your placement officer TODAY—for an interview with West Penn.

Indoor Track Team
Places in Meets

The URI indoor track team has placed in several meets in the last few weeks. On Jan. 21, the team took first place, a second and a fourth in the 36th annual Knights of Columbus track meet held in Boston.

A team composed of Tony Alexander, Marshall Greenblatt, Bill Lattanzio and Karl Linehan first in the mile relay, while the URI placed second in their mile relay and Dick Carl finished fourth in the 440-yard dash. For the latter, it was a major achievement in that he was matched against Frank Ruff of Villanova, who set a record in the 100-yard dash, doing it in 9.8 seconds.

In the Millrose games held Feb. 5, the mile track class finished fourth, while the Boston University and Rutgers and Seton Hall.

In the Boston Athletic Association Games, held the next day, the track team placed fourth again in the mile.

NEWMA PERSON CLUB TALK

"Commotions on the Map," a 45-minute film strip tracing the spread of communism from the Far East to the present will be shown tomorrow, beginning at the regular hour of the Newman Club in conjunction with' the University of Rhode Island. All are invited to attend the showing prepared by Barbara Casey, a member of class '58. An open discussion and refreshments will follow the presentation.

IBM WILL INTERVIEW FEBRUARY 23

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

Engineering and Sales

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advancement, educational, financial benefits, and company benefits—all important factors that affect your futures.

SOME FACTS ABOUT IBM

An Unusual Growth Story: IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite applicability in our modern economy.

Diverse and Important Products: IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operation of business, industry, science, and government.

Across-the-Country Operations: Laboratory and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Matthews, Mo.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 150 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he can handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, or national origin.

Your placement officer can help you to learn more about IBM. He can give you a description of the many career fields at IBM. He will arrange an appointment with you for an IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office.

by Alan Birkenfeld

As Frank W. Keeney was one of the major contributors to basketball as we know it today, with his fire-house basketball, and as he was the high scoring games today, the greatest scorer in the history of this style was Stanley Stuz-Mojelewski, when he was the outstanding driver. His one weakness stated for Keeney, to his advantage, was his one weakness was a lack of a good outside shot, which affected his usefulness in professional basketball.

The greatest all around player under this system, according to the Red Auerbach, coach of the Boston Celts, was Ernie Calverley. "He was without a doubt the greatest passer down the middle of the fast break that the game has ever known. He would dribble or maximum, then jump in the air at the four-foot line, and pass beautifully. He had the extraordinary ability of seeming to be in the air almost forever. In addition, he had a fine outside shot. But he, too, lacked one essential item for success in professional basketball. With Ernie, it was freshness and lack of dull points.

While the Providence Steam Rollers used the firehouse basketball in the beginning, these two college stars were outshining. However, this system couldn't last due to the weak defense, and the lack of height, and Providence withdrew from the league.

Of Ernie's 1868 points, a school record, the most memorable game during the KT during the 1945-46 season. During that season he scored against Bowling Green; he scored 55 field goals from the line and scored and sent the contest into overtime, which the Ram won. They lost to Kentucky in the final, 46-45.

As a sophomore, Ernie led the country in scoring with an average of 22.5. By his senior season, including 534 points in 20 games. In his senior year, when the Rams lost to DePaul, with George Mikan in the semi-finals, Calverley scored 547 points in 23 games.

In his final year, he scored 441 points. At the end of his senior year, Calverley was picked on the All-American third team.

After his playing days ended, Calverley coached in the Providence school system, at Bryant College, and as the freshman coach at Providence College before returning to URI. During his first season, 1957-58, the Rams won only four games against four seasons, they have won eight, twelve, and last year posted their best record in over ten years, finishing with an 18-19 record, and ending Connecticut's ten-year reign as Yankee Conference champions.

Returning to Madison Square Garden, the first time as a coach, Calverley led the Rams against third-ranked St. Bonaventure.

Coach Ernie Calverley has had a successful career as a professional basketball player and has helped to improve the last season's record. He has the extraordinary ability of seeming to be in the air almost forever. In addition, he had a fine outside shot. But he, too, lacked one essential item for success in professional basketball. With Ernie, it was freshness and lack of dull points.

Calverley-Coach of The Year

Coach Ernie Calverley of the URI varsity basketball team was named Coach of The Year at the annual URI award on Jan. 24 at a dinner attended by 300 persons, including Governor Meta. The award was made by Words Unlimited, an organization composed of Rhode Island sports writers and sportsmen.

Calverley was the organization's first coach of the year in 1960, and was the first ever to receive the separate awards from the organization. The award was presented to him by Bill Casey of the Daily Bell, in recognition of the

Calverley-Coach of The Year

The URI varsity basketball team has three high non-conference games coming up in the following week, the opponents being Cottleate, Fri day at Hamilton, N. Y., St. Bonaventure, Saturday in Buffalo, and Providence College here at Kingdom on Tuesday.

Cottleate is led by junior Rob Duffy, the teamplacing high scorer last season with a 240 average and the highest scoring sophomore in the school's history. A leading candidate for All-East honors this season, Rob is the second member of Cottleate's 500-point club. With only five returning lettermen, Cottleate will have to rely on Duffy to improve on the last season's record of 14-12. The first time Rhode Placed Cottleate was in 1924, and the overall record between the two teams is 1-1. Other starters should include John Doyle, Dan Raffa, Mel Watkins, and Carl McNamara.

P. G. Here Next Tuesday Night

This year's team has two of the most exciting players in college basketball, Tom Dougherty, Words Unlimited

Frosh Tennis

Any male student who desires to try out for the frosh tennis team, and who is a member of the freshman class (provided that he has not previously attended another collegiate institution) is requested to report to coach Fred Studt in 109 Keeney Gym as soon as possible.

Massachusetts Over Rhody Again 73-62, Last Night

The Rams lost another heart-breaker to the University of Mass. last night at Keeney Gym, this time the score being 73-62, after 2:000 spectators.

Don Bernard, Roger Twitchell and Mike Mole led the visitors in scoring, having 53 points among them. Dave Ricereo had 21 points for the Rams, while Bobby Logan added 13.

The score at halftime was 36-22, in favor of the Rams. Then the Rams came fighting back with the aid of Ricereo, Logan and Don Rothstein, but Gary Koenig fouled out with 13 minutes remaining, followed subsequently by Logan and Ricereo, and the picture was complete. At one time, Rhody was leading 42-41, but Mike Mole and Don Bernard scored on twenty-foot jump shots, to send the Redmen ahead to stay.

For URI, the loss was a bitter one to take, for they had to realize that their hold on first place in the Yankee Conference for the first time in two seasons. Massachusetts now leads the Conference with a 7-1 record, followed by Rhody 4-2.

In the opener, the Rams defeated the University of Hartford 90-82, after being ahead at halftime, 47-42. Johnnie Mulligan led the scoring with 22 points on nine field goals and five free throws. Steve Chamberlain added 20 points, and Dana Leitewen, 15.
