- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library has extensive holdings in relevant subject categories. The allocation for the purchase of monographs for 2021-22 is distributed among specific subject groups, rather than interdisciplinary programs. We also have a "general" category for the purchase of monographs. The amount allocated to "general" purchases for 2021-22 is approximately \$50,000. The cost of journal and database subscriptions is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

There are no essential journals noted in the Faculty Questionnaire.

4. What information mastery sessions will be required for the students?

Students in this course are not expected to do research. No information mastery sessions are required.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
