In view of the fact that the University College Policy Committee will not be able to make recommendations on Admissions questions prior to the deadline for revising the URI Catalog for 1973-74, it suggests to the Senate that the material now appearing on pages 15 and 16 of the Catalog be continued temporarily, i. e., until such time as the Committee has presented its report and the Faculty Senate is able to act on it.

(See attached modifications made in the language of the statement on "Admission to College," Page 15, Undergraduate Catalog, 1972-73.)

### ADMISSION TO COLLEGE

The University desires that its undergraduates shall be men and women who are not only competent to do a good job in the classroom, but are also possessed of wide interests and positive qualities of character and personality. Students are selected for enrollment primarily on the basis of their academic competence without regard to age, race, sex, creed or national origin. Any person with a strong preparatory record, who possesses better than average intelligence, or who has special aptitudes or talents, should not hesitate to apply.

Candidates must meet the requirements in units of the University College as listed below for entrance to the University. Furthermore, to be prepared to enter a specific college in the sophomore or junior year, applicants ~~should~~ also complete the additional high school requirements of the particular college to which transfer is anticipated. See page 9 for description of the University College.

Applicants are given individual consideration, but it is expected that all candidates will offer 16 units of college preparatory work as outlined below. If these requirements are not fully satisfied by secondary school certificate, they may be met wholly or in part by successful performance on appropriate examinations administered by the College Entrance Examination Board or the University.
