Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The URI Libraries collections hold substantial resources in relevant subjects, both monographs and journals. The existing collection should support the course adequately. The allocation for purchasing monographs for Nursing for 2016-17 is \$9,000, most of which has already been expended.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The library holds all of the essential journals noted in the Faculty Questionnaire at least as far back as 1995.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required to support the course.

4. What information mastery sessions will be required for the students?

No information mastery sessions are required for students.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library associated with this course. Continuing costs will be covered in the normal allocation for continuing subscriptions to the essential journals.
