FACULTY SENATE

On February 13, 1986 the Faculty Senate approved the following new sections of the University Manual recommended by the Faculty Welfare and Liaison Committee and amended on the floor:

4.60.20 Joint Appointments. Full-time continuing (tenure track) members of the faculty may receive joint appointments in more than one department and in more than one college. The departments benefit from increases in expertise, potential for collaborative efforts, specializations to offer prospective students, and research support. The appointee benefits from increased access to highly skilled faculty and students and from intellectual cross-fertilization with people sharing common research interests.

4.60.21 Upon recommendation of the departments involved, a joint appointment is made by the dean(s) of the college(s) involved, using official personnel forms of the University. Since a joint appointment profoundly affects both the appointee and the department(s), a clear, written justification must be given by the dean(s) to the Vice President for Academic Affairs. Special care should be taken to explain and justify the joint appointment of a faculty member working toward tenure and promotion.

4.60.22 Joint appointees may participate fully in the activities of all departments involved, such as teaching, research, service, and student supervision. They shall have full voting privileges in meetings of these departments.

4.60.30 Program Appointments. Faculty in continuing positions shall be given membership within a program in accordance with policies and procedures established by that program. A major professor for a graduate student in the program shall be given membership automatically in that program. Membership shall carry program-curriculum voting rights, but without the privileges and peer-review obligations for joint appointments to departments.
