President

On March 26,2009, the Faculty Senate adopted the following resolution recommended by the Executive Committee:

In consideration of faculty concerns raised during the Provost's Academic Summit (especially session 8) and in consideration of the substantial negative impacts that site selection for the research park could impose on existing academic coursework, research and scholarship affecting over 1200 students annually,

BE IT FURTHER RESOLVED that the Provost, the Vice President for Administration and the Vice President for Research and Economic Development collaborate with an Ad Hoc Faculty Senate Committee to review priorities for the character of the Research Park and facilities to be established.
