500/600 Level New Courses

College of Environmental and Life Sciences

Marine Affairs

MAF 650/650X Marine Affairs Doctoral Research Seminar

This seminar gives MAF doctoral students opportunities to engage classmates and professors in conversations about the research process. Students will build their research community through leading and engaging in class discussions with fellow students and faculty. This course may be repeated for credit up to three times.

(Sem. 1)

Prerequisite: Graduate standing and permission of instructor.

College of Engineering

Mechanical, Industrial and Systems Engineering

MCE 585 Solar Thermal Engineering

Course covers principles of solar radiation, radiation characteristics of materials, and applications to flat-plate and concentrating collectors, and tools designed for passive and active solar heating/cooling systems. A research paper and presentation are required. (Lec. 3)

Prerequisite: Graduate standing or permission of instructor. This course is not open for the students who have prior credit in the 400-level version (MCE 485).
