

Figure 8 . Graphical representation of SCA definitions, see text for full discussion and references. Boundary ages in normal type indicate an estimated age, those in bold denote a radiometric age at the SCA boundary. Arrows and larger font denote currently accepted age of stage boundary; those with an asterisk (*) are used as boundary definitions for SCAs. Late Cretaceous time scale, sea level curve, ammonite and nanofossil zones constructed using TS-Creator version 2.0. Goukdoff Zones after Goukdoff (1945), Martin, (1964), and McGuire (1988).
