## The Grist

### HENRY NEWELL BARLOW "Bugs"

Electrical Engineering  
Wassaic, New York  
P I K

Manager of Class Basketball (I); Class Baseball (I & II); Serg. Major (II); Class Track (II); Varsity Track (II); Sub. Varsity Baseball (II); 1st. Lieut. and Adjutant (III); Military Ball Com. (III); Business Manager 1912 Grist (III); Scholastic Honors (II); Rifle Club; Dramatic Club; Relay Team (III).

"Bugs" was graduated from Amenia High in 1908 and entered R. I. in the following September. In college activities, he is always prominent, besides being one of the brightest in our class. In his Sophomore year, "Bugs" opened the eyes of many by jumping from the ranks to the office of sergeant major. "Bugs'" hobby is electrical and we look forward to seeing him head of some large electrical plant.

### CARLE MUZZY BIGELOW "Big"

Woonsocket, R. I.  
Applied Science with Chemical Option  
Σ Δ

Manager of Class Football Team (I); Vice-President of Class (I); Vice-President Y. M. C. A. (I); Second Tenor and Reader Glee Club (I, II & III); Chairman Decoration Com. Soph. Hop (II); Military Ball Com. (I, II & III); Scholastic Honors (II); President Dramatic Club (II); Corp. Co. B (II); Serg. Co. A (III); Associate Editor Beacon (I, II & III); Editor-in-Chief 1912 Grist (II); Student Council (III); Asst. Varsity Football Manager (III); Manager-elect (IV); Vice-President Debating Club (III); Vice-Pres. Woonsocket Club (II); Rifle Team (III); Science Club; Terms Association.

"Big" first made himself noticeable by being one of the three traveler Freshmen officers. Later he became a confirmed fusser and made himself scarce for sometime, finding time however for entering nearly all the college activities. His main (Maine) interest in the class has now, however, turned to Pawtucket. His fine record as a student will no doubt continue and graduate him with honors.

FRANK HAROLD BRIDEN

"Birdie"

Central Falls, R. I.

Mechanical Engineering

Varsity Football (II & III); Varsity Baseball (II & III); Varsity Basketball (III); Class Football (II); Class Basketball (II); Class Baseball (II); Mgr. Class Track Team (II); Soph. Hop Com. (II); Associate Editor 1912 Grist (III); Corp. Co. B (II).

Hello, Kid! Providence the attraction? No, never again, Westerly for mine. Visions of becoming a great mechanical engineer are often overshadowed by athletics, rough-housing, and fussing. In spite of these weaknesses, "Birdie" is a faithful student, a loyal classmate and a prince of goodfellows. We wish him the greatest success.

PHILIP HARRISON CLARK

"Peleg"

Centerville, R. I.

Electrical Engineering

Manager of Class Track Team (I); Secretary of Tennis Association (II); Scorer in Interscholastic Track Meet (II); Secretary Student Council (II); Vice-President Student Council (III); Asst. Treas. Lecture Asso. (III); Associate Editor Beacon (I, II & III); Associate Editor 1912 Grist (III); Engineering Society; Dramatic Club.

This illustrious Nineteen Twelve man was ushered into the realms of humanity at Crompton, R. I., in 1888, with the usual commotion attending important additions to the world's population. Then he grew into a school boy, passing through grammar school and Warwick High with the rest of the crowd. He is now enrolled as a Junior at R. I. S. C. We leave him there with the brightest prospects for the future.

## The Orist

ELECTRA HENRETTA COBB

"Dixie"

Howardsville, Va.

Home Economics

Member of Y. W. C. U.

Born in New York; bred in Virginia; grew up in Klienbery Female Seminary; existed in Watson House, a Sub-Freshmen;—Aggie; changed her course to Home Economics and continued existence in Wells House; lived and became sophisticated in Davis Hall. Electra discovered the "culmination of happiness" during her Sophomore year. She still cherishes the aggie idea and looks forward to the time when she can return to the sunny south and practically apply Home Economics.

EDGAR GEORGE DAVIS

"Davy"

Providence, R. I.

Civil Engineering

Interscholastic Track Meet Committee (I); Capt. Soph. Track Team (II); Captain Varsity Track Team (II & III); Varsity Football Team (II & III); Member of Student Committee for building of new running track (II).

"Davy" dropped into college in the Feb. term of 1909 and enrolled in the class of 1911 with varying fortunes and misfortunes—until early in his Sophomore year when he came in contact with the automatic ejector. We could not lose him, however, and the next year 1912 found in him a strong supporter. During his two years with 1912 "Davy's" grit and staying qualities have manifested themselves in a striking manner, contributing largely to the victory of 1912 in the annual interclass track meet.

WALTER DOLL

"Beany"

Pawtucket, R. I.

Mechanical Engineering

P I K

Varsity Football (II & III); Captain-elect (IV); Class Football Captain (I & II); Varsity Basketball (I, II & III); Captain (III); Class Basketball (I & II); Varsity Baseball (I, II & III); Class Baseball (I & II); Captain (I); Varsity Track Team (II); Class Track Team (II); Student Council (I); Class President (II & III); Military Ball Committee (I & II); Glee Club (I, II & III); Dramatic Club Mgr. (II & III); Scholastic Honors (II); Chairman of Soph. Hop Committee (II); Corp. Co. A (II); Serg. Co. B (III); Engineering Society; Associate Editor of Grist (III).

"Beany" was graduated from Pawtucket High in 1903 and entered R. I. S. C. in 1908. He has and is still making an enviable record in studies and athletics. He is a natural leader and a part of nearly every activity of our college life. His hobby is mechanical engineering and since he attained no mean position before entering college, we cannot but think of success for him in the future.

ETHEL PIERCE HENDERSON

"Ethel"

Westerly, R. I.

Applied Science. Chemical Option

Entered in Junior year.

"Ethel" is a Quaker, born in Hopkinton, R. I. In boarding school and high school she was prominent in literary and debating activities. She attended the New York Normal School two years before coming to R. I. S. C. "Ethel" is deeply interested in mission work and for two years and a half taught in a Chinese mission in Brooklyn.

## The Orist

### CHARLES VARNUM JOHNSON

"Stubby"

Allenton, R. I.

Civil Engineering

Class Football (I & II); Manager Class Baseball (I); Asst. Instructor in Surveying (II); Sophomore Hop Committee (II); Asso. Editor Beacon (II); Subscription Manager Beacon (III); Corp. Co. B (III); Dramatic Club; Rifle Club.

A literary man? Certainly; Asst. Manager of Beacon and receiving agent of the Wolleston Daily News. A new star will shine forth in railroad engineering when "our Stubby" takes the field. Already we hear that he has affixed his name to a lifelong contract with the Pullman Co. A loyal classmate and jolly good fellow, we wish him all success.

### CHARLES HERBERT LARKIN

"Charlie"

Ashaway, R. I.

Civil Engineering

P I K

Class Secretary (II & III); Class Basketball Mgr. (II); Vice-Pres. Y. M. C. A. (I & III); Treas. Dramatic Club (II & III); Glee Club (II & III); Member of Committee sent to Rochester in interest of Y. M. C. A. (II); Asst. Mgr. Varsity Baseball (III); Military Ball Com. (III); Serg. Band (III).

"Charlie" graduated from Westerly High in 1908, entering R. I. S. C. the following fall. During the three years he has been here he has proved himself to be a good student, and a good fellow. The revising of the Civil course was by far the most important thing "Charlie" has done while at R. I. S. C. All Civil students in years to come will look upon him as their benefactor. We prophecy him a brilliant future.

HARRY LYDEN MOUNCE

"Little Mounce"

North Marshfield, Mass.

Agriculture

B Φ

Varsity Football (II & III); Class Football (I & II); Military Ball Com. (II & III); Soph. Hop. Com. (II); Dramatic Club; Agricultural Club.

"Big Mounce" realized how great was the need of a college training for the "little one," hence Harry's arrival. As an "Electrical" he did not dazzle us and upon "Tip's" counsel he turned "Aggie." At class "feeds" his ability as a dairyman is invaluable. Now his energies are being spent in endeavoring to ascertain just where and how to induce Mother Earth to yield her best products. He'll make good.

JAMES FRANCES NUGENT

"Jimmie"

Providence, R. I.

Civil Engineering

Σ Δ

Class Baseball (I & II); Class Football (II); Class Track Team (II); Varsity Track Team (I); Varsity Baseball Squad (II); Asst. Track Mgr. (II); Varsity Track Mgr. (III); Vice-Pres. Athletic Assoc. (II); Pres. Athletic Assoc. (III); Corp. Co. B (II); Serg. Co. A (III); Class Treas. (II & III); Vice-Pres. Engineering Society (II & III); Treas. Rifle Club (III); Military Ball Committee (II & III); Debating Club (III); Dramatic Club.

"Jimmie" arrived rather late in our Freshman year. He has been an active member, both of his class and his Alma Mater. He showed very little interest in the other sex until his Junior year, when he obtained the dues of a nickel (son) and joined the Fusser's Club. "Jimmie" will some day be one of our great engineers.

## The Orist

BERTHA MAY NUTTING

"Bee"

Lititz, Pennsylvania

Home Economics

Secretary Class (I); Girls' Basketball (II & III); Y. W. C. A.

"Buxom, blithe, and debonair," attended Amherst Grammar and High Schools, and Northfield Seminary. She came to R. I. S. C. in 1908 to study Home Economics and soon developed an active interest in canoeing and successfully captivated a little fellow who often paddled her around Thirty Acre. She holds the dormitory record for candy, noise, and avoidrups.

ARTHUR JOHN PATTERSON

"Pat"

Buffalo, N. Y.

Electrical Engineering

P I K

Class Football (I & II); Class Vice-Pres (II & III); Chairman Music Com; Soph. Hop (II); Track Judge, Inter-scholastic Meet (II); Freshman Rules Com (III); Serg. Co. A (III); Asst. Basketball Manager (III); Varsity Football (III); Dramatic Club.

"Pat" is one of the most popular fellows in the school. Always attacking his tasks with great sincerity of purpose, he has accomplished much in college activities and a great deal more in class rooms. Being electrically inclined and having had good practical experience previous to entering college, we can look for great things after he leaves.

FRED ALLEN RICHMOND

"Rich"

Hope Valley, R. I.  
Electrical Engineering

Class Baseball (II); Corp Co. B. (II & III).

Who is that smiling optimistic young man of the class of 1912, who has never spent a week end on Kingston Hill? It is no one but our friend and classmate "Rich." Perhaps every one doesn't know, but "There's a Reason." Ask him. Nevertheless, with all his failings, we can all look to "Rich" as a good-hearted, conscientious classmate, who some day ought to make a name for himself and his Alma Mater, in electrical circles.

EBEN GEORGE ROBINSON

"Bob"

Edgewood, R. I.  
Agriculture

Σ Δ

Class Football (I); Second Team Football (I, II & III); Agricultural, Dramatic and Tennis Clubs.

"Bob," as we have seen during his stay among us, has been one of those quiet, unobtrusive fellows whose friendship once obtained is well worth keeping. Often he takes his briar, and lying back in his chair, dreams of the "Aggie Life" to come, in Tampa, Fla. Nevertheless, "Bob" has been a worthy member of 1912 and a loyal classmate.

## The Grist

GEORGE WILLIAM SHERMAN, Jr.

"Deacon"

Lafayette, R. I.

Electrical Engineering

President of the Day Student Organization (III).

If Phillip Sherman, away back in the early part of the 17th century, could have looked forward into the dim future of his posterity and seen George, what would have been his thoughts? Perhaps, when he saw this product of Yawgoo, a suburb of the beautiful city of Slocums, it would have caused him to think in terms of microvolts.

## ALLAE CORDELIA SLATER

"Allae"

Kingston, R. I.

Home Economics

Mgr. Freshmen Girls' Basketball (I & II); Scholastic Honors (II); Soph. Hop Com. (II); Assoc. Editor Beacon (II & III); Associate Editor Grist (III); Captain Girls' Varsity Basketball Team (III); Sec. Lecture Association (III).

"Allae's" early life was very romantic, and the usual high school course was omitted; the usual high school course was omitted; the best authors gave her a thorough, though unusual, preparation for the collegiate course. All branches of student activities and minor details have filled Miss Slater's days here at college. Her record speaks for itself.

FRANK STECK

"Frank"

Newark, N. J.

Chemical Engineering

Engineering, Dramatic, and Tennis Club.

"Frank" joined us under the classification of Civil Engineer, but in a short time changed to a Chemical Engineer. He has shown his class spirit by repeatedly coming out for his class teams. "Frank" is also considered handy with the boxing gloves. He is one of the best students and the success that he has had in his work thus far makes us feel that he will soon make his mark in the world as a Chemical Engineer.

JOHN LEO SULLIVAN

"Sully"

Lonsdale, R. I.

Electrical Engineering

P I K

Class Football (II); Varsity Football (II & III); Class Basketball (I & II); Captain (II); Varsity Basketball (I, II & III); Class Basketball (I & II); Varsity Baseball (I, II & III); Class Track Team (II); Glee Club (III); Military Ball Com. (I & II); Soph. Hop Com. (II); Corp. Co. A (II); Serg. Co. B (III); Asst. Manager 1912 Grist; Dramatic Club.

It being impossible to give a full account of "Sully's" career through lack of space, we will only mention a few of his specialties. He joined us as an engineer and all went well until his Soph. year when the Boarding (Borden!) Hall opened a new field for him. As an athlete "Sully" has no superior; after every contest, be it football, basketball or baseball, varsity or class, he is the talk of the town. "Sul" also has a good record as a student and we have no doubt of his making a successful engineer.

## The Orist

### EARL ALBERT TYLER

"Tip"

Centerville, R. I.

Applied Science with Chemical Option

Σ Δ

Mandolin Soloist Glee Club (I, II & III); Asst. Manager Glee Club (II); Mgr. Class Baseball (II); Soph. Hop Com. (II); Military Ball Com. (II & III); Mgr. Glee Club (II & III); Vice-President Tennis Assoc. (II); Sec. Dramatic Club (II & III); Mgr. Tennis Team (II); Corp. Co. A (III); Rifle Club.

Gosh Hang! Gee Christmas! Oh Fidget! With such mighty oaths on his lips, "Little Tip" landed in our midst. Jolly, care-free, happy,—he is one of the chosen, possessing the "true savor," for who could feel gloomy or discouraged near this distributor of sunshine? Incidentally, "Tip" is an ardent Prohibitionist, which accounts for his great love for water, even in the abstruse form of "H<sub>2</sub>O house."

### SAMUEL C. WEBSTER, Jr.

"Sam"

Westerly, R. I.

Agriculture

Σ Δ

Entered in Sophomore year: Class Football (II); Class Basketball (II).

"Sam" made his first appearance on the stage of life in Philadelphia, which accounts for his being such a noisy lad. In the fall of 1909 he came to join the class of 1912 at R. I. S. C. to study farming. One of his two chief occupations is jollying the girls on the student wagon; the other is assisting in the botany department.

## Past Members of 1912
