On Friday Public Services met and discussed our databases requests for the coming year. We would like to continue all current subscriptions with one cancellation:

Regional one Statistical Warehouse - \$4,103

We would like to add two new subscriptions:

Proquest Statistical Abstract of the U.S. - \$1,622

Thomson Reuters Journal Citation Reports - \$10,180

The first titles will be a substitute for the cancelled title.

JCR is a database that we are constantly getting requests for from the faculty. We are hoping that the savings that have been negotiated on other subscriptions will be sufficient to add this essential database.

Thanks, Robin
