Speak out for America's Libraries

Libraries Change Lives

I believe America's libraries play a vital role in empowering people of all ages to learn and grow and to exercise their right to know in a democratic society. I believe our nation's libraries must be fully supported in the Information Age.

Help celebrate America's Libraries. Tell us in 100 words or less how the library and/or librarian helped to change your life or made a difference for you or someone you know. Your "success story" will be used to support the case for library funding with legislators and policymakers at the local, state and national levels and to tell others how the library can help.

Who knows? It could change someone's life.

Your library "success story/comments (please type or print):

The library has helped me in many ways throughout my many years in school. It has helped me with term papers, career projects, book reports, and essays. I can receive fast information through the computers and that saves time. The librarians are always eager to help people get the information on any subject that they need information on. They help you on the computers, and they also help you when you need sources for big projects. The library is a very important place in today's society.

Without it people would not be able to afford all the books that they possibly would need in their lives. Without the library, people would not have the education that they have today.
