Subsection (c) limits the funds that may be transferred to or from other activities of the Environmental Protection Agency, to 10 percent of the total funds authorized in subsection (a).

Section 5

This section provides that appropriations made pursuant to the authority provided in section 2 of this act shall remain available for obligation and expenditure, for such period or periods as may be specified in the act making such appropriations.

Section 4

This section specifies that no appropriation may be made to the Environmental Protection Agency for environmental research, development, or demonstration, for any period beginning after September 30, 1976, unless previously authorized by legislation hereafter enacted by the Congress.

Section 5

This section directs the Administrator of the Environmental Protection Agency to submit to Congress a 5-year plan for environmental research. This plan is to be appropriately revised each year.

Section 6

This section requires that whenever in any fiscal year funds are appropriated in excess of the President's budget request for 1977, the first $3 million of any excess for EPA will be used to assure the adequacy, reliability and quality of the testing of chemicals and the first $25,250 million of any excess for FDA, shall be used solely to maintain and assure the preclinical and clinical adequacy, reliability, and quality of the testing of drugs, food additives, devices and cosmetics. In the event where any excess is greater than such amounts, discretionary authority is given to the Administrator of EPA and the Secretary of HEW to expend such funds for these purposes.
