b. Revise the undergraduate curriculum as follows:

PHYSICAL EDUCATION FOR MEN

This curriculum is designed to prepare men to teach primarily in the field of physical education at either the elementary or secondary levels. Sufficient electives are provided to permit students to fulfill state certification requirements for an academic subject ordinarily taught in secondary schools.

Each student must complete a Biology teaching minor by electing an additional three hour course in biology.

Majors must elect one of the coaching courses offered in the Spring Semester of the junior year, and the Fall Semester of the senior year; or, they may complete all of the coaching courses.

Advanced ROTC students are to arrange for second semester senior year Military Science with the Military Science Department.

Each student must also: (a) purchase, at the beginning of the freshman year, the regulation uniform required of all freshmen; (b) provide his own gymnasium shoes; (c) rent a locker in the gymnasium; (d) purchase, the second semester of the sophomore year, a special instructor's uniform; (e) join the American Association for Health, Physical Education and Recreation.
