SECTION III  

Report of the Black Studies Program Advisory Committee  

The Faculty Senate Curricular Affairs Committee recommends approval of the following report contingent upon:  

1. Proper coding and numbers for the introductory courses,  

2. A revised statement for page 10 of the Undergraduate Bulletin which includes a list of participating departments,  

3. The preparation of a detailed description (following procedures required for all new courses) of the proposed Senior Research Seminar to be submitted to the Curricular Affairs Committee by the Director of Black Studies by Fall, 1974.
REPORT
OF
BLACK STUDIES PROGRAM ADVISORY COMMITTEE *

UNDERGRADUATE
BLACK STUDIES PROGRAM
1974

MEMBERS OF THE COMMITTEE:

DR. ANTHONY BRYAN
PROFESSOR DOUGLAS JOHNSON
PROFESSOR SHELLY KILLEN
DR. JOSEPHINE MILBURN

PROFESSOR MATTHIAS NEWELL
DR. CYPRIAN ROWE, CHAIRMAN
DR. ROBERT WEISBORD

* As amended by the Curricular Affairs Committee, May 13, 1974.
INTRODUCTION

The original Black Studies Committee was created nearly three and one half years ago in pursuance of action taken by the Faculty Senate. That action included approval of the charge to the committee. The principal tasks included in this charge were:

To formulate an interdisciplinary curriculum in Black Studies based on existing and potential course offerings, taking into account current institutional resources, with the purpose of the Program becoming a program of subspecialization in a variety of existing degree programs (for example, Geography, Political Science, History, Economics, etc.)

The committee felt that the initial curriculum of Black Studies be formed from existing course offerings. However, newly created interdisciplinary courses would be introduced as interests dictate and resources permit. In this way, the committee believes, a model interdisciplinary curriculum in Black Studies will evolve over time in response to the manifest needs of our students and society. But this program will consist of a variety of curriculums of concentrations in Black Studies within which students will be afforded a significant range of programmatic choice rather than ever become a common core of courses for students throughout the University.

In other words to summarize our most important conclusions, the committee believes that the Black Studies Program should be formulated from existing course offerings, that this program should take the form of a series of multi-disciplinary curriculums, adapted to the interests of the students in the several colleges, that students should concentrate in one of these curriculums and be certified for their degrees in these concentrations, and that a model interdisciplinary curriculum in Black Studies should be developed over time taking into account experience at the University and at other colleges and universities that offer programs in Black Studies. It follows logically, the committee believes, that supervision over this program should be exercised by the Black Studies Program Director and his Advisory Committee.

THE COMMITTEE'S RECOMMENDATIONS

The committee specifically recommends:

1. That the Black Studies Program be an area of interest which consists of multi-disciplinary and interdisciplinary course work at the undergraduate level.
2. That the Black Studies Program Advisory Committee supervise the operation of this program and certify students who complete Black Studies area of interest requirements.

IMPLEMENTATION OF THE BLACK STUDIES PROGRAM

It is necessary, the committee believes, to be quite specific about how the Black Studies Program would operate.

1. That there be a Director of Black Studies. That the Director be designated, as part of his responsibilities at the University, to serve as Director of the Black Studies Advisory Committee.

2. The primary responsibility of this committee will be to advise the Director of the Black Studies Program and to facilitate communication between the Director and the various departments and colleges.

3. Furthermore, it shall be the responsibility of the Director and his Advisory Committee to advise students on the formulation of their programs.

4. That, with the exception of the activity of the Director in supervising the BSAC, the activities of members of the committee shall not, at this time, warrant reduction in their assigned responsibilities at the University. However, reduction in teaching-research loads or additional compensation (in accordance with whatever pattern is adopted for advisory service in the University College) may be recommended in the future, depending upon the development of the Black Studies Program.

5. That the Black Studies Advisory Council conduct an ongoing evaluation of the Black Studies Program and report periodically to the Joint Educational Policy Committee about the development of the program.

APPROVAL OF THE BLACK STUDIES PROGRAM

If the Black Studies Program we have recommended is approved by the Joint Educational Policy Committee, it is our understanding that the program will be submitted to the Faculty Senate Curricular Affairs Committee for its judgement, and subsequently to the Faculty Senate, to the President, and to the Board of Re-
gents. Section 5.75.10 of the University Manual provides that the Faculty Senate Curricular Affairs Committee shall study and make recommendations to the Faculty Senate on, among other matters, "the establishment of new experimental and interdisciplinary instructional programs not confined to one college." In our view, the Black Studies Program conforms to this description of a new interdisciplinary instructional program not confined to one college which should be reviewed by the Faculty Senate Curricular Affairs Committee.
APPENDIX

BLACK STUDIES
THE AFRICAN WORLD/BLACK STUDIES PROGRAM AT URI

I. AIMS

The Black Studies Program is an inter-disciplinary undergraduate program, designed to insure the organized study of Black people. This purpose divides into two parts:

1. In terms of Black people themselves, it serves to give them a sense of future direction because it will give them a sense of their past. It will provide them with a sufficient methodology so that they can be of real service to their Black brothers and sisters.

2. In terms of whites, the program will serve to reorient them historically and psychologically.

We will embrace the African experience from the three large centers of Black population: North America, especially the United States, the Caribbean (which includes certain areas of Latin America), and the Mother Continent Africa. The primary role of the Black Studies Program is to initiate and coordinate efforts in the academic area, while simultaneously, offering service to any and all activities of Black people on the URI Campus.
